2.1 Policy

Quality Policy
ABT's main competitive advantage in the wood packaging industry is our quality. Long-term relationships with customers who place great importance on quality are part of our tradition and future. Open and direct communication with the customer leads to appreciation and credibility. The company's greatest asset is our employees, who prioritize quality and are attentive to every step of production.
In the event of a deviation, regardless of whether it is discovered within the company or by a customer, an investigation must always be carried out into how it could have occurred in order to constantly improve ourselves and increase the company's customer satisfaction.

Environmental Policy
As a consumer of forest raw materials and as a wood processing industry, we must work to ensure that the business is conducted in the most environmentally friendly way possible, for the environment and for the employees.

We shall comply with applicable legislation and follow FSC®', (FSC-C089427), requirements and intentions, and as far as possible ensure that the raw material does not come from illegal or socially unauthorized logging, key biotopes, forest areas where traditional or civil rights are violated, forests where high conservation values are threatened, genetically modified trees or natural forest that has been logged for the purpose of using the area for plantations or non-forest land use,

Follow the ILO core conventions regarding:
• Child labor
• Forced labor
• Discrimination in the workplace
• Joining the union, and collective agreements

The operation shall be conducted and improved in such a way that the potential negative impact on the environment is reduced.
The raw material shall, to the greatest possible extent, come from environmentally friendly certified forestry. We shall work to increase this volume.
We shall responsibly fulfill our commitments to employees, society, the environment and contractors.
The staff shall be trained and informed so that they can meet the above requirements and intentions.
